

2016 Annual Report

Brehon assisted 1509 clients with needs including shelter, family support and education. These prevention programs saved the community \$20 million in avoidance of hospital, educational, and child abuse costs. During this year Brehon's programs accomplished the following objectives:

Brehon House: Transitional housing and case management for homeless, pregnant women and their babies; services provided up to 2 months postpartum when families are moved into more permanent housing.

- 25 homeless, pregnant women and children received housing and support services.
- 100% of residents completing the program moved into more permanent housing.
- 100% of residents delivered healthy babies.
- 100% of residents achieved at least 80% of their goals.
- 2,500 hours of services were provided (i.e. life skills and parenting classes).
- ZERO infant mortality rate.

Project S.A.F.E. (Support and Family Education): In-home family support, intervention services, and parent education for high risk families; services provided up to 90 days.

- 137 individuals received services in Madison
- 242 individuals receive services in Taylor counties.
- 3,000 hours of services were provided including parent education, self-esteem and life skills.
- 5,000 units of service were delivered.
- 282 referrals made.
- ZERO infant mortality rate.
